COMMON PLEAS-SPECIAL TERM. One of the Gold Paule Cases

Before Judge Daiy.

Baker et. al_us. Lockscood et. al.—This is one of those cases which grew out of the gold panic on September 24 from the accumulation of business in the Gearing House and its inability to deliver gott. The plaintif borrowed at various times prior to eptember 24, 1869, sums of gold amounting alto gether to \$190,000. During the gold panic on the 24th September, when gold was 162%, plaintiffs told gether to \$190,000. During the gold panic on the 24th September, when gold was 102%, plaintiffs told defendants they were afraid gold would go higher, and wished to purchase sufficient to cover their loan, as their margin with defen lanks was only 42.%. Defendants advised them not to buy at that fate, as gold should certainly fall, and they would not require plaintiffs to cover their margin. Plantiffs did not buy at that time, but when gold felt to 133 they insisted on buying. Accordingly gold was purchased at the Gold Exchange, to be delivered next day through the Clearing House. On the next day through the Clearing House, on the next day through the Clearing House, on the fifth they had not received it, and informed defendants that they would not be responsible unless delivered that day, out should act as did others similarly situated. On the 24th of October the defendants, feeing themselves bound to accept the gold, and, believing it would be delivered, reddied plaintiffs which the \$190,000 gold, and charged them with the currency at the contract price. This adjustment was communicated to plaintiffs on the 5th of October, and they made no objection, but on the 6th they wrote to defendants repadiating the settlement. Defendants had paid for the gold at 135, which they had contracted for, gold being at the time only 129. The action was brought to have defendants charged with the difference between 129 and 136 on the \$190,000, which would amount to about \$11,400. The Court gave judgment for defendants, as plainting had left to optional with defendants to resend of execute the agreement.

THE WILKES-BUSBY LIBEL SUIT.

The following is the decision in full rendered by Justice Shandley in the proceedings in liber by Saun-ders D. Brace and Hamilton W. Busby, editors of the Turf, Field and Farm, against George Wilkes, of the Spirit of the Times:-

the spirit of the Times:—

In the case in which Hamilton W. Busby is the complainant the variance between the matter complainant the variance between the matter complained of and the complaint itself is, beyond all question, fatal, and the English authorities and the decisions of our own courts all unite in declaring, for prudential and sound legal reasons, that in libel, as in forgery, the signitest variance is fatal, and literal exactness is therefore necessary. With regard to the complaint preferred by Saunders D. Bruce against Mr. Wikes for an alleged libel in charging him (Bruce) with preferred by Saunders D. Bruce against Mr. Wikes for an alleged libel in charging him (Bruce) with performed by Saunders D. Bruce, in which the latter sought to postpone the trial on an indictment for libel preferred symmethia by Mr. Wikes, there appears to be main given established, and the facts in these cases and tack by a play able to them, as well as the interests of justice, demand the dismissal of these complaints.

MONEY BASY AND STRADY.

The money market was steady at three to five per cent. The banks continue abundantly supplied with national currency, and are free lenders. The rate on call remains steady, however, in consequence of the advance in prices at the Stock Exchange. On stocks the figure ranges from four to five, and on governments from three to four. Commercial paper is without essential change from the rates last quested.

The gold market was strong and moderately active. In the forenoon the price yielded to 114%, seemingly under the higher rates for carrying gold, but, with the firmness in exchange, advanced to 114%, espenially as it was reported simultaneously that the Funding bili question is likely to receive the go-by at the hands of the Congressional committee until the Tax bill and other measures are first disposed of. THE PACIFIC MAIL COMPANY'S REPORT. At a meeting of the Board of Directors of the Pacific Man Steamship Company held this afternoon the special committee submitted their report of the affairs of the company. The assets enumerated in the report embrace the items of \$420,000 cash in the treasury and in the hands of the pursers and agents; \$200,000 due the company for money loan d; \$600,000 invested in government bonds; \$2,700,000 of way shares at 150; \$1,200,000 worth of coal; \$300,000 worth of supplies; \$1,874,000 real estate and \$12,000,000 as the value of the company's steamers and lighters—a total of nearly \$20,000,000, or equivalent to the capital stock. As an exhibit of the condition of the finances of the company the report is very full and detailed, and exception can be taken only to the valuation placed on the steamers. But even allowing a large percentage of depreciation in this item the resources will prove flatteringly agreeable to the stockholders who have purchased at the more recent quotations for the shares. The report is given at length in our advertising columns.

STOCKS STRONG AND DULL.

The stock market was again dull, but prices were firmly maintained. In the foremoon there was an advance in the general list in sympathy with a snarp rise in Pacific Mail, which ran up to 40%. This figure brought out sales, under which price fell off again, Pacific Man declining to 38%, while some disappointment was felt that the government bought only one million of bonds, and so closed the May programme of Treasury operations without making the large purchases originally expected. Later in the day Rock Island took the lead in a Iresh upward turn and advanced to 120% on the announcement that the earnings for the third week in May had improved about \$40,000 upon those for the corresponding period of last year. Towards the close the market fell of simultaneously with the report of a decrease of \$6,000 in the earnings of the Northwest for the same period. Pacific Mail was exceptionally firm, and closed at 40%. THE GOVERNMENT PURCHASE OF BONDS. The Assistant United States Treasurer received proposals to-day for the sale to the government of one million of bonds for the Sinking Fund. It was expected in some quarters that in thus closing the May programme the government would purchase at least two millions, but during the afternoon the award was made for only the million specified in the advertisement. The total bonds offered were less than four millions. The accepted lots were as fol-
